Additional Fixed Location (AFL) Audit Checklist

Location: Denver AFL	Contact: Edduyn Pita
Date: July 15, 2025	Auditor: Chris Demarest

Completed checklists will be retained in the Audit Department

Note: This checklist does not apply to locations at AZO, BTL, LNK or PVU

S = Satisfactory; U = Unsatisfactory; N/A = Not Applicable; C = Comments

ITEM	REQUIREMENT	MANUAL REFERENCE / SECTION	S	U	N/A	C
1	**General, Safety, Facilities**					
1.1	Have previous audit findings been closed and was preventive action effective?	GIP-0020	X			X
1.2	Do employees have access to and use the most current company manuals?	RSGOM PP-MCR-01	X			
1.3	Is customer property stored safely and adequately? (Engine cowlings, interior items, etc…)	RSGOM PP-13	X			
1.4	Are workspaces appropriate for the task? Is work area clean, good lighting, safe, temp/humidity controlled?	RSGOM RS-04 SAF-2010	X			
1.5	Are flammable items stored in an approved and grounded flam-cabinet?	SAF-2010 29 CFR 1910.106	X			
1.6	Are employees familiar with and able to locate Material Safety Data Sheets (MSDS)?	29 CFR 1910.1200	X			
1.7	Are first aid kits available and maintained?	29 CFR 1910.151	X			
1.8	Are fire extinguishers available, charged, current, not blocked and visible?	29 CFR 1910.157	X			
1.9	Are appropriate measures in place for disposal of soiled rags and other materials if maintenance is performed at the AFL location?	Duncan EMS	X			
1.10	Are fluid containers contents properly identified? Are HAZMAT stickers on spray bottles and barrels?	29 CFR 1910.1200	X			
1.11	Is Personal Protective Equipment available & in use? Hearing/Eye protection, masks, gloves, fall protection…? Are emergency eyewash stations available & maintained?	29 CFR 1910.132	X			
1.12	Are hoses, cords, grounding cables stored safely? Are walkways clear of cages, GSE, tool boxes, etc…?	SAF-2010	X			

ITEM	REQUIREMENT	REFERENCE	S	U	N/A	C
2	**Parts, Materials, Shipping & Receiving**					
2.1	Are parts cages, storage lockers and tables at the work station/aircraft properly marked and clear of debris? If area is not marked, then each part must be tagged.	RSGOM PP-13	X			
2.2	Are Electro-Static Discharge Sensitive (ESDS) devices handled and stored properly.	RSGOM PP-17 RSGOM PP-18	X			
2.3	Are Electro-Static Discharge Sensitive (ESDS) mats and wrist straps tested as required in the RSGOM?	RSGOM PP-17	X			
2.4	Is there evidence that parts/materials receive an inspection upon arrival?	REC-0010	X			
2.5	Do all Shipping & Receiving Auditors have the required SRI training?	RSGOM PP-28	X			
2.6	Do procedures exist for detecting and reporting suspected unapproved parts (SUP)? Are employees familiar with these procedures?	RSGOM QC-09	X			
2.7	Are new and removed parts properly stored and packaged to limit exposure? Are hose ends & other cavities covered to prevent contamination?	RSGOM PP-15		X		X
2.8	Are parts with a core value returned promptly and correctly?	SAT-1150	X			
2.9	Are condemned/non-conforming & unserviceable parts segregated from serviceable parts?	RSGOM PP-14		X		X
2.10	Is there evidence that services are purchased from suppliers on the approved vendor list?	REC-0010	X			
2.11	If customer parts are installed, do they get a receiving inspection before installation?	FAA Order 8120.2A, AC 21.20A	X			
2.12	Are any shelf-life limited items past their expiration date?	RSGOM PP-06		X		X
2.13	Are shelf-life limited items with special storage requirements (TMP) properly identified stored in accordance with those requirements?	DGP-0012		X		X

ITEM	REQUIREMENT	REFERENCE	S	U	N/A	C
3	**Process - Data, Forms, Records, Training**					
3.1	Audit a representative sample of work orders in accordance with procedures in section 2.2 of GIP-0020. Results of these audits will be recorded in the AS400W.	GIP-0020	X			
3.2	Are manuals in the department either audited per GIP-0102 and current, or marked "Inactive" or "For Reference Only"?	RSGOM QC-06 GIP-0102	X			
3.3	Do the forms and tags in use have control numbers & current revision status? Are all forms used found in the D-3?	RSGOM PP-25 GPP-0011	X			
3.4	Can those operating GSE show verifiable training? (scissor-lift, genie boom, fork-lift)	SAF-2000	X			
3.5	Are turnovers being accomplished IAW the procedures in the RSGOM?	RSGOM PP-04	X			
4	**Work performed Under 121/125/135**					
4.1	Review a representative sample of work order packages for 121/125/135 certificate holders. Complete the following items based on the review of the selected work orders.	14 CFR 145.205 14 CFR 145.209(g)				
	Work Order: CFEWA	Air Carrier: Metro Aviation				
	Work Order: C5DHA	Air Carrier: Med-Trans, Corporation & AMGH				
	Work Order: C31YA	Air Carrier: Ventura Aviation				
4.2	Was the maintenance completed in accordance with the air carrier's approved program and maintenance manual?	14 CFR 145.205 14 CFR 145.209(g)	X			
4.3	Are turnovers being accomplished IAW the certificate holder's requirements to ensure that required inspections, maintenance, and alterations that are not completed, because of a work interruption, are properly completed before the aircraft is returned to service?	14 CFR 145.205 14 CFR 145.209(g) 14 CFR 121.369 (b) (9)	X			
4.4	Are the certificate holder's work forms, job cards, and detailed procedures for performing inspections and other maintenance being properly completed?	14 CFR 145.205 14 CFR 145.209(g)	X			
4.5	Is the certificate holder's system for recordkeeping and retention being followed, if applicable?	14 CFR 145.205 14 CFR 145.209(g) 14 CFR 121.369 (c)	X			
4.6	Are the training requirements of the certificate holders being met?	14 CFR 145.205 14 CFR 145.209(g) 14 CFR 121.375	X			

ITEM	REQUIREMENT	REFERENCE	S	U	N/A	C
5	**Equipment, Tools**					
5.1	Sample precision tools in use, including personal tools. For each tool, answer items 5.2 though 5.4					
	SN: R 9020 / Due Date: 17 April 2026	SN: N/A / Due Date: N/A				
	SN: SDN161 / Due Date: 17 June 2026	SN: N/A / Due Date: N/A				
	SN: 86308 / Due Date: 31 March 2026	SN: N/A / Due Date: N/A				
	SN: 3-03 / Due Date: 15 May 2026	SN: N/A / Due Date: N/A				
	SN: B8XA912411250 / Due Date: 10 April 2026	SN: N/A / Due Date: N/A				
5.2	The tool is within its calibration interval (not overdue for calibration).	RSGOM QC-08	X			
5.3	Information on the calibration sticker (SN, Cal Date, Due Date, Cal type) matches the Certificate.	RSGOM QC-08, PP-26	X			
5.4	If a Limited Calibration, ensure the limitation on the sticker matches the Certificate.	RSGOM QC-08, PP-26	X			
5.5	Are precision tools that are not used for 'return to service' marked "FOR REFERENCE ONLY"?	RSGOM QC-08		X		X
5.6	Does this AFL determine calibration status of new tools or equipment before they are put into service?	14 CFR 145.109(b) RSGOM QC-08	X			
5.7	Are employees familiar with the recall and recalibration procedure for measuring and test equipment?	RSGOM QC-08	X			
5.8	Is M&TE identified to prevent the inadvertent use of non-calibrated equipment in the maintenance process?	14 CFR 145.109(b) RSGOM PP-26	X			
5.09	Verify that the shop is ensuring the equipment and tools used to maintain articles are those recommended by the article's manufacturer or the equivalent as accepted by the FAA.	14 CFR 145.109(c) RSGOM PP-20 GIP-0900 GIP-0901	X			
5.10	Does test and measuring equipment manufactured by the repair station (equivalent tooling) meet the calibration standards recommended by the manufacturer of the article being measured or tested?	14 CFR 145.1(c) RSGOM PP-20 GIP-0900 GIP-0901	X			
	SN: 934-005 / P/N: DA80-000934		X			
	SN: N/A / P/N: N/A					
5.11	Are maintenance and service manuals available for all test equipment used in this department to perform maintenance, preventive maintenance, or alterations?	14 CFR 145.109(c)	X			
5.12	Does this AFL fulfill the tool and equipment manufacturer's requirements for control, maintenance, use and storage?	14 CFR 145.109(c)	X			
5.13	Does all maintenance equipment that is installed on aircraft have obvious marking to ensure it is removed before maintenance is complete?	RSGOM QC-03	X			

ITEM	REQUIREMENT	REFERENCE	S	U	N/A	C
6	**Quality Assurance**					
6.1	Has the Repair Station changed locations, housing or facilities? Has the CRS sold or transferred assets that require an amended certificate?	14 CFR 145.55, 57, 105			X	
6.2	Does this AFL follow the procedures in the RSGOM for conducting self evaluations and revising the Op Specs?	RSGOM RS-05 14 CFR 145.215 (c)	X			
6.3	Does this AFL perform only the specific services and functions within the ratings and classes stated in its operations specifications and capability list?	RSGOM RS-05 14 CFR 145.215(a)(b) AC 145-9	X			
6.4	Are all required certificates, ratings, city and/or state licenses on hand, up to date, and available if requested?	14 CFR 145.5 Local regulations	X			
6.5	Are there sufficient supervisory personnel to direct & oversee the work performed?	14 CFR 145.153	X			
6.6	Sample return to service personnel and Supervisors to ensure they are certificated under part 65?	14 CFR 65 14 CFR 145.157 14 CFR 145.153	X			
6.7	Are the Management/Supervisory and Inspector Rosters available and accurate? Are Employment Summaries available and accurate for the above personnel?	14 CFR 145.161 RSGOM RS-02	X			
6.8	Are changes to the Management/Supervisory and Inspector Rosters caused by terminations, re-assignments, changes in duties etc. reflected in the rosters within 5 business days.	RSGOM RS-02	X			
6.9	Are Inspection Personnel thoroughly familiar with regulations, inspection methods, techniques, practices, aids, equipment and tools used in the Repair Station? And are Inspectors proficient in using inspection equipment and visual inspection aids as appropriate for the task?	14 CFR 145.155	X			
6.10	Are Qualified Inspectors thoroughly familiar with the RSGOM and their duties and responsibilities?	14 CFR 145.155(a)(1)	X			
6.11	Does the Repair Station report to the FAA within 96 hours after it discovers any serious failure, malfunction, or defect of an article?	14 CFR 145.221	X			
6.12	When required, are re-inspection/retests performed following rework?	14 CFR 145.213(a)&(b)	X			
6.13	Are all required inspections and tests satisfactorily accomplished prior to final acceptance of the completed products/parts?	14 CFR 145.213(a)&(b) RSGOM QC-04	X			

Item	Comment
1.1	Items from June Inspection: Squeeze Bottle Properly Marked. Hazardous waste drum ordered and with arrive the week of 7-21-2025. Drum will be label properly upon arrival.
2.7	Connector found in open bag on upper part of Techs Desk with would documentation of part or condition. **RSGOM PP-15-01.**
2.7	Found large bag of Medium Zip Ties in end pocket of Techs Tool bag. No traceability with part and bag did not list part number, Lot Number of PO. **GIP-0895.**
2.9	Used connector remove from aircraft found on upper part of Techs Desk. Parts was not labeled or tag. **RSGOM PP-13-01**
2.12	Valve Grind did not have an expiration date or an on-condition sticker. **PP-06-01.**
2.13	Additional item (Valve Grind) was found in Flame Locker that wasn't shown as being returned on the flame locker tracking list. Item had been removed from the flame locker on 6/9/25 under employee code MEDIJ. Item did not list a return date. **DGP-0012.**
5.5	Paint Gun Pressure Gauge missing for reference only sticker. **RSGOM QC-08.**
